

KLOVE has played a big role in my community. I live in South Sacramento where there is a lot of violence, drugs and poverty.

People need to hear an encouraging word and through radio they can do it for free. If KLOVE was removed by LPFM people would lose the opportunity to hear about God's salvation through Jesus Christ. The biggest chance that this community has to be transformed is with God's help. KLOVE is broadcasted throughout US and we would lose the opportunity to be connected with so many people.
